option or ordering online and has a various menu.

functional requirements:

Homepage:

- Displays the restaurants name and the logo.
- Nav bar to help costumers find different pages such as the about us or like the menu page.

Menu:

- The menu will have different sections for each category.
- there will be images and prices for each meal.
- the costumers can scroll around and search for the meals they want.

Online Ordering:

- costumers can order online through or website
- we have a cart that you can add and remove items from it.
- you can add toppings for each dish or special sauces.
- costumers can pay online and its safe.

About Us:

- we talk about the restaurant and how we started it.
- Details about the staff and owner are also available.

non-functional requirements:

Performance:

- we talk about the restaurant and how we started it.
- Details about the staff and owner are also available.

non-functional requirements:

Performance:

- The website loads within seconds from logging in to it depending on your internet connection.
- The system can handle as many users as we want and the performance would not be affected.

Usability:

- The website is user friendly and compatible for different users.
- The website is very complying with people that have disabilities.

Regulatory Compliance:

- the website complies with relevant data protection laws and local regulations.

+ :: transition requirements:

User Training:

- The staff of the restaurant will be trained on how to manage the website and work on it
- Some guidance will be also provided for costumers

Content Population:

- The website will be kept up to date with our opening hours and updates to prices and the menu.

Mobile Responsiveness:

- we will verify if the website is functional on different devices to ensure a good service for the

interface requirements:

Feedback and Reviews:

- The costumer will have a specific page to go and leave a review or a message about his own experience with our restaurant.

Branding:

- we will keep taking care of our brand by always keeping our commercials and posts filled with our colorful and various food.
